# CAPABILITY STATEMENT

## INDUSTRIES WE SERVE

- Government
- Healthcare
- Telecommunication
- Department of Defense

## WHO WE ARE

**EncapCyber** is a woman-owned leader with 3 decades of experience in Cybersecurity, IT Services and AI Innovation, delivering battle-tested Zero Trust solutions. By bridging global security leadership with veteran DoD Cyber Warfare experience, we provide unified, AI-powered strategies designed for the modern threat landscape. We build resilient, security-first technology and infrastructure that turn complex defense into operational excellence.

## AI-ENHANCED CORE COMPETENCIES

- **CISO as a Service:** Executive-level, global security leadership to define and implement a zero trust strategy.
- **Regulatory Compliance Management:** Navigate CMMC with multi-layered AI-powered technology.
- **Zero Trust Integration:** End-to-End Zero Trust Architecture to deliver secure products and services.
- **Endpoint Monitoring, Detection and Response:** Continuous, systematic monitoring with AI-powered technology.
- **Vulnerability Scanning & Attack Surface Management:** Continuous and systematic to identify threats and guide remediation prioritization.
- **Secure Development:** Integrate security throughout the entire application, infrastructure and cloud lifecycle.
- **IT Services:** On-prem to cloud migration, secure cloud architecture, digital transformation, secure administration.

## DIFFERENTIATORS

- **Expert Team:** Decades of experience securing DoD and Fortune 50 companies.
- **Cyber Warfare Experience:** Elite U.S. Air Force Cyber Warfare Officer leading Cyber Protection Teams
- **AI-Driven Innovation:** Machine learning and automation for smarter and faster protection.
- **Certified Staff:** Trained and certified CISSP, CMMC, GCIH, GSEC, NIST RMF
- **One-Stop-Security-Shop:** Design, test, deliver, maintain and train to deliver secure products and services

## OWNER PAST PERFORMANCE

- **United States Air Force:** Director of Operations for elite Cyber Protection Team leading missions delivery CVA/H, threat hunting, and mission assurance.
- **Lockheed Martin:** Navy Aegis Combat System Security, Coast Guard Deepwater System Security, Coast Guard National Security Cutter System Security, Coast Guard Sentinel-Class Cutter System Security
- **General Dynamics:** High Security Firewall Authority to Operate for 47 Navy Ships
- **L3 Harris:** Navy Ship to Shore Connector secure architecture design, test and delivery, security training for Navy personnel, Coast Guard National Security Cutter System Security.
- **Comcast:** Zero Trust Product Security design, test, delivery and maintenance for Xfinity Mobile, Xfinity Home, Xfinity Retail.
- **Verizon:** End-to-End DevSecOps Security Design, Threat Modeling, On-Prem to Cloud Migration, Secrets Management
- **CVS Health:** Restructured entire Cybersecurity program with Zero Trust integration, reduced critical risks by 98%, saved \$37M
